

About

A Product Designer with a front-end engineering mindset (HTML/CSS/JS), acting as a strategic bridge between design, business, and engineering teams. I specialize in transforming extremely complex B2B business logic and data-heavy workflows into intuitive, scalable digital solutions. By establishing advanced Design Systems (using Semantic Tokens) and a zero-gap developer handoff process, I significantly reduce technical debt and accelerate agile product delivery.

Experience

Product Designer (Project-based)

Spotx Studio

Since 2022

B2B System Optimization

Led the 0-1 digital transformation of the ZOT Enterprise Welfare System. Untangled complex RBAC permissions and financial logic, reducing the paper-based approval workflow from 2 weeks to 3 days while eliminating operational errors.

Data-Heavy UI Design

Designed a clinical alarm dashboard for Uneo. Optimized visual hierarchy and error-prevention mechanisms for high-pressure medical environments, allowing staff to identify anomalies at a glance.

Hardware-Software Integration

Developed a dedicated hardware-control App for Acrox (Gaming brand), seamlessly translating complex macro settings and lighting synchronization into an intuitive, tech-forward interface.

Cross-Platform App Design

Spearheaded the 0-1 product design for the Churchplus community App. Simplified a highly complex information architecture by 40% and established a scalable UI system for global consistency.

DesignOps & Developer Handoff

Architected highly maintainable Design Systems in Figma using Semantic Tokens and Boolean Variables for responsive breakpoints. Delivered UI specifications that map 1:1 with CSS/Sass logic, drastically reducing communication costs with the engineering team.

Media Team Lead

TCOC

Since 2023

Implemented Project Management Ops

Improved transparency and on-time delivery by implementing Notion workspaces to standardize agile workflows and eliminate cross-departmental information silos.

Brand Revamp & Video Production

Led the official website redesign and managed cross-media visual assets. Directed the end-to-end video production process for in-depth interviews and events.

Visual Designer

In-well Limited

2021 - 2022

High-Conversion Marketing

Drove sales performance by translating marketing strategies into high-conversion ad creatives. Transformed complex product data into easily digestible visual charts to facilitate consumer decision-making.

Education

Bachelor in Hotel Management

The Hong Kong Polytechnic University

2016-2020

Internship: Executive Floor Front Desk, Sunworld Dynasty Hotel Taipei (6 months)

Skills	UI/UX Design	Figma, Information Architecture, User Flow, Wireframing, High-fidelity Prototyping, User Analysis, Motion Design (Lottie/Rive).	     
	Frontend Integration	HTML5, CSS3 (Sass), Bootstrap, Responsive Web Design (RWD), jQuery.	     
	Tools & Management	Notion
